REVO

REVIEW APP

Presented by :

MANEESHA RAJ

Introduction:

This application allows users to view and review products, with different functionalities based on user roles: Admin, Registered User.
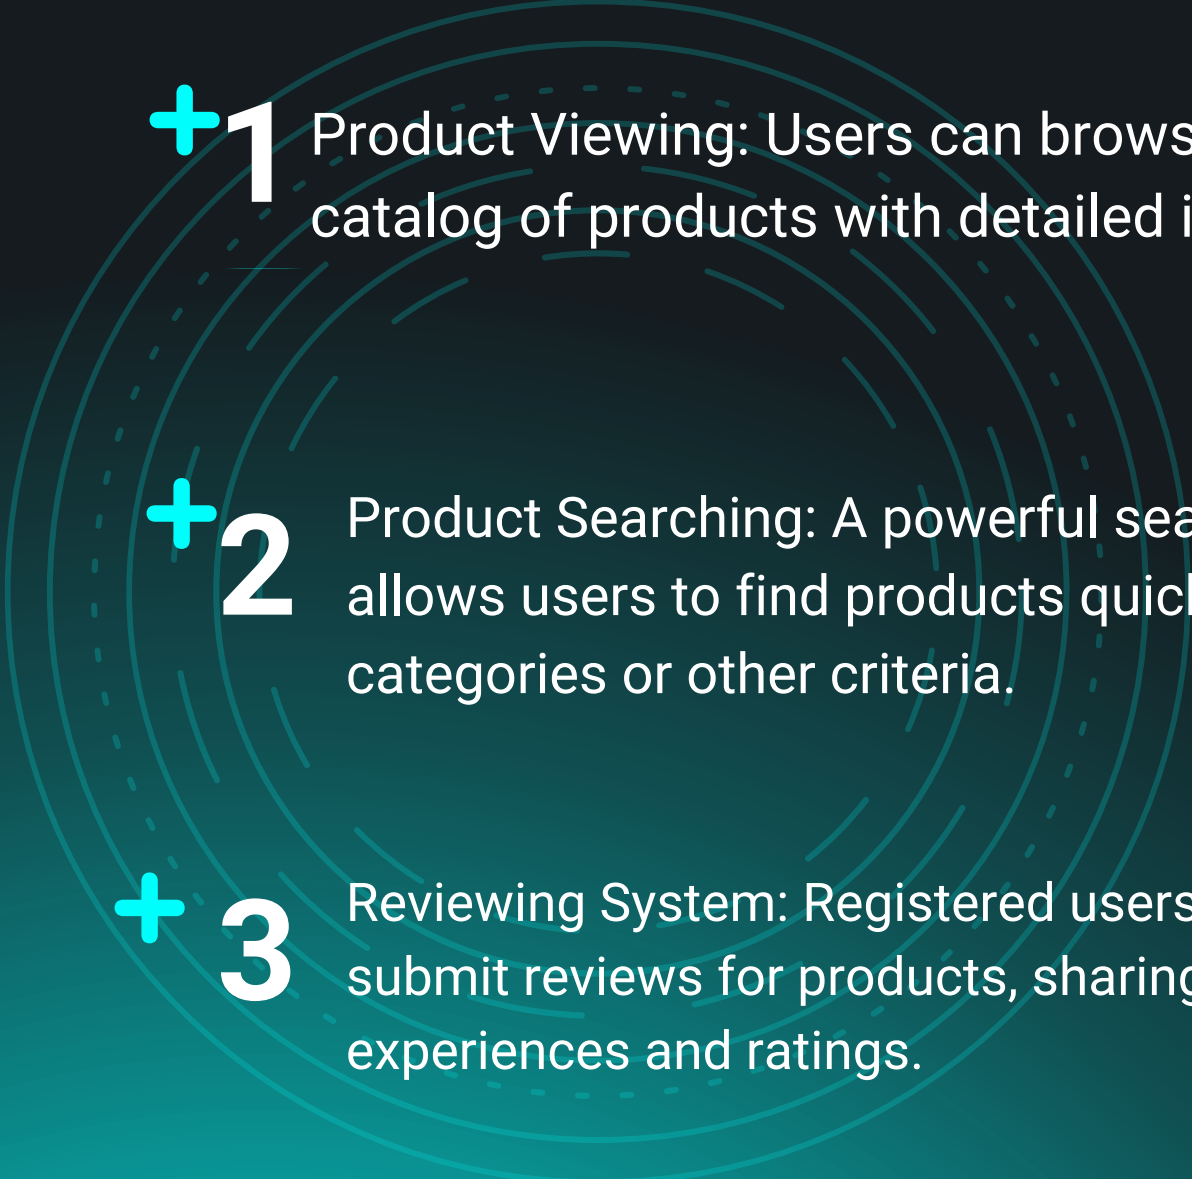

Modules

- Admin
- User

REVO

Key features:

+1 Product Viewing: Users can browse through a catalog of products with detailed information.

+2 Product Searching: A powerful search feature allows users to find products quickly based on categories or other criteria.

+3 Reviewing System: Registered users can write and submit reviews for products, sharing their experiences and ratings.

+4 Admin Dashboard: Provides administrators with tools to manage the product catalog, including adding, deleting, and searching for products.

+5 Star Rating System: Provides a star rating system, typically from 1 to 5 stars, where 1 star represents the lowest rating and 5 stars represent the highest rating.

REVO
